

## Ozone Therapy

The Pet Campus, Inc. is pleased to announce that we now offer state-of-the-art Hydro-Massage Ozone Skin Therapies for pets.

This technologically advanced pet skin therapy is more than just oxygenated bubbles but an actual skin therapy machine that generates ozone to treat skin conditions.

Ozone is the most powerful and rapid acting oxidizer man can produce and will oxidize all bacteria, mold and yeast spores, organic material and viruses. With Hydro-Massage Ozone therapies, it means we can successfully treat allergies, fungus, seborrhea, hair loss, itchy skin and much, much more while using the highest quality Italian pet skin products and treatment options.
